Subject: Day 10 - Data Security and Data Breaches

Welcome to Day 10 of the Compliance Training Programme - today we will focus on:

Data Security & Data Breaches

This video details how to adopt practical measures to keep personal data and assets secure. It also takes a more detailed look at data breaches; what they are and what to do.

Being data security aware is for everyone across the Party.

If you think you've had a data breach, we can work through it together - let me know by emailing: data.protection@libdems.org.uk
