

# ID Cards won't cut Crime

Everyone knows that carrying a piece of plastic in your pocket won't stop someone mugging or attacking you.

But that's what Gordon Brown and Labour want you to believe.

They have even shown us why they can't be trusted to look after our personal data.

Losing the data of 25 million people is bad enough. Just imagine them losing the data of every person in Britain!

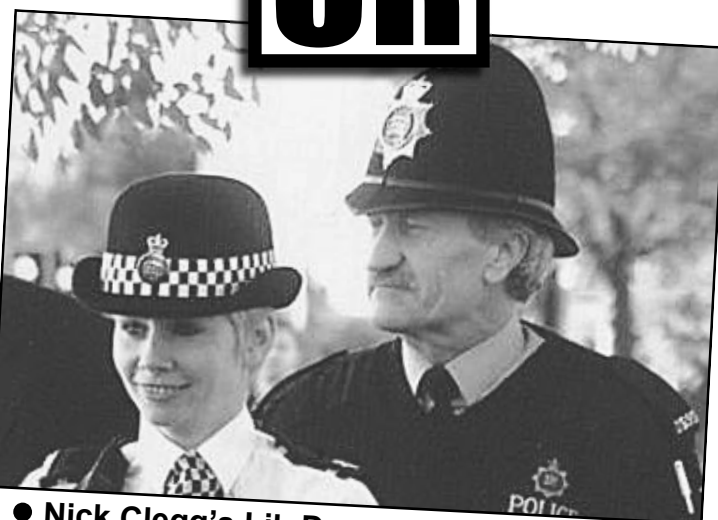

Spending billions on ID cards is a colossal waste of money.

Nick Clegg's Liberal Democrats want to spend the money on real action to make Britain a safer place to live.

With just 1 in 100 crimes ending in a conviction in court today, it's time for action to catch criminals and cut crime.
