

Chester North & Neston Constituency Biography

Chester North & Neston is a new constituency, first contested in 2024. It borders **North Wales**, and includes all of the historic part of the wonderful **City of Chester**, a key fortified city for 2000 years, together with the attractive riverside south west areas of the **Wirral peninsular**.

Unfortunately we failed to hold our deposit in 2024, but there were particular reasons for this. The area does have a strong **Lib Dem heritage**. In the 30+ years up till 2010 substantial numbers of **Lib Dem Councillors** were elected to represent a number of wards throughout the Constituency. Unfortunately the move from two-tier Local Government to a **Unitary Cheshire West and Chester Council** at that time proved disastrous for us politically.

We believe that the area is **ripe for a revival of Liberal Democrat fortunes**, capitalising on our 2024 General Election and Council by election successes, and higher National profile, and are looking for an **enthusiastic PPC** to spearhead this drive.
