

Manifesto for Sudhakar Achwal
Candidate for Federal Council - Councillor Position,

I am honoured to put my name forward for election to the Federal Council - Councillor Position of the Liberal Democrats. As a British citizen of Indian origin, I bring a perspective shaped by both professional experience and a lifelong commitment to public service.

Currently, I serve as the Mayor of Winchester District, a historic position I hold as the 826th Mayor. Prior to this, I was elected as a Ward Councillor for Whiteley and Shedfield in Winchester City Council. My professional background as a chemical engineer has instilled in me a problem-solving mindset and a commitment to evidence-based decision-making, qualities I bring to all aspects of public service.

Throughout my career and community involvement, I have been driven by a simple principle: that democracy works best when everyone has a voice. I am passionate about increasing representation of ethnic minority communities within our party and in the wider political process. Too often, systemic barriers prevent talented and motivated individuals from ethnic backgrounds from fully participating in public life. I aim to break those barriers, encourage engagement, and ensure that the voices and concerns of all communities are heard and addressed.

As a member of the Federal Council, I will work to:

- **Promote diversity and inclusion** within the party, particularly by increasing representation of ethnic minority communities at all levels.
- **Encourage participation in democracy** by reaching out to underrepresented groups, ensuring they are informed, empowered, and supported to take an active role.
- **Advocate for community-driven policy** that reflects the real concerns of diverse populations across the UK.
- **Support evidence-based decision-making**, drawing on my professional and civic experience to help the party navigate complex challenges effectively.

I continue to volunteer for local organisations, believing that meaningful change begins at the grassroots. By fostering engagement, encouraging leadership, and amplifying voices that have historically been underrepresented, I will work to make our party stronger, more inclusive, and more representative of modern Britain.

I would be honoured to receive your support and to serve on the Federal Council, helping to ensure that every member, in every community, has the opportunity to contribute to our party's vision and values.
