

JANEY LITTLE

#1 Choice for Federal Board

FIGHTING AGAINST THE POLITICS OF DIVISION

We need to fight against hatred and division and **make the case for a compassionate politics**. Votes at 16 are coming, so we need to prioritise youth engagement. With my **experience as Chair of the Young Liberals**, I can help us to prove that we are the best progressive choice for young people and win young voters. As a Federal Party, **our strategy must reflect the different contexts and messaging** needed in Scotland and Wales.

SUPPORTING OUR MEMBERS

With the current political climate, **we need to stand up for our members more than ever and ensure they feel welcome in the party**, especially those from marginalised groups. We must ensure members are safe while campaigning and support those who need it. Our members shape our party and we need to value their contributions and ideas. At an individual level, if elected, **I will regularly report back to and consult members as appropriate**.

DEFENDING OUR LIBERAL VALUES

I have consistently proven dedication to liberal values throughout my six years as a party member. We must prioritise greater diversity at every level of the party, including among candidates externally and internally. In particular, I will advocate for funding increases for the Campaign for Gender Balance and the Racial Diversity Campaign. **Our values must underpin everything we do and we need to support all parts of the party in upholding and defending our liberal values**, including our international work.

“I’ve already served on Federal Board as Young Liberals chair, so I know exactly what it takes to have your voice heard and make an impact on Board.”
