

Re-Elect Edward Sainsbury #1 for Federal Council

Improving Diversity

Diversity of our membership remains a key area for our party to improve. I'm committed to supporting efforts to tackle this.

Championing Localism

Our party's success is built on the back of our local government success and the importance we place on empowering local communities. We must not lose this.

Protecting Trans Rights

A minority of members wish to water down or end our commitment to supporting Trans rights. I will oppose this at every opportunity.

Winning Everywhere

We need to be ambitious for our party and look at how we can support members to spread liberalism beyond our held and top target seats. We should also be considering the opportunities presented by the emerging multi-party political landscape.

RE-ELECT EDWARD!

The next few years are full of possibilities for our party. Through it all, we need to make sure we stay true to our party's values and core ideas whilst maximising the opportunities to advance liberalism through the campaigns and elections we fight.

Championing diverse voices, protecting the rights of marginalised communities, centring our local government strength and remaining unashamedly liberal are unwavering priorities in my view...
