

Vote Fraser For Federal Council

Why me?

I have experience of working at varying levels of the party, from **Federal Conference Committee** to **Local Party Executives**. As an Architect, I have a **keen eye for scrutinising details** and the experience to **know what questions need to be asked**.

My Priorities for Federal Council:

- **Scrutiny** - You deserve an effective council which holds the leadership of our party to account, and asks the tough questions when they are needed.
- **Accountability** - Our federal committees should be transparent and accountable, and I will be clear why I want to call in a decision, and how this will affect our membership.
- **Federalism** - I will work to protect the independence of our state parties, and support all of our states and regions if party leadership tries to centralise power.
- **Equality** - I will fight to protect the rights of marginalised groups within our party, and ensure our party leadership is driving forward in promoting diversity. As a member of the LGBT+ community, I stand strongly in support of trans rights.
