

VOTE CHRIS MAINES FOR FCC

DELIVERING FOR YOU!

Organising our conference is a **question of balance** between the wishes of the **leadership** and **media team** and **party members**.

I **believe conference belongs to party members** and have **strongly opposed** moves to cancel or curtail conferences. I support any moves to make it more **accessible for members** and to open it up for **greater engagement** and **participation**.

FCC's priority must be to keep costs down for members attending.

This year, I organised the London Summer Forum (praised by Mark Pack!) and the London Regional conference - it's vital we generate more discussion and generate new ideas among our members. To support and enthuse our campaigning. Creating a winning team that members want to join and participate in.

EXPERIENCE AND CONTINUITY...

Over **125 years** of experience from 4 members of Conference team - working together to **deliver a successful, friendly and enjoyable time**.

Chris has been involved in Conference as a **steward, Chief Steward** and **FCC member**. He has the **institutional knowledge** and **experience** needed on FCC but he is very keen on new approaches and innovation. Looking at ways for **greater involvement** from members - **more interventions, soap-box presentations** and **us being more responsive to daily news stories**.

Chris Maines
