

# Vote Fraser Graham For FCC

## Why me?

I have been a **member of Federal Conference Committee** since 2023. I am also a Vice Convener of the **Scottish Lib Dems Conference Committee**. I am experienced in chairing debates, scrutinising policy and helping to **make our party conferences run smoothly**.

## My Priorities for Federal Conference Committee:

- **Accessibility** - We need to do better to make our conferences affordable for members, including options for making online participation more interactive and attractive.
- **Member Led Policy** - I will continue to fight to put members' motions forward onto the agenda, and provide more training and support for members to draft good quality policies for submission.
- **Accountability** - Our motion selection process should remain transparent, with clear feedback given on why selection decisions have been made.
- **Working Hard** - I am a very proactive member of FCC, taking on whatever tasks need doing over the conference weekend. I have always been happy to take on the less glamorous tasks to help out our hardworking stewards and staff.

## My Record of Action:

Since joining FCC in 2023 as Scottish Representative, I have:

- Spoken up during agenda setting meetings to **promote member submitted policies** and **challenge the increasing prevalence of MP submitted motions** being taken to conference.
- **Provided drafting advice** to several members to help with their policy proposals, both formally as part of the FCC drafting advice service and informally when approached directly.
- **Attended every Federal Conference** during my tenure on FCC, chairing and aiding debates, staffing the FCC help desk, **assisting the stewards, exhibitors and attendees**, and **providing key input during daily FCC meetings**.
- Created and delivered an **updated training session** to members on **how to write a conference motion**, providing valuable insight into what makes a good conference motion and the common mistakes which are often made.
- **Consistently stood up for the rights** of the diverse membership attending our conferences, raising **issues affecting accessibility** and voting consistently to **protect the well being of our Trans and Non-Binary members** attending conference.
