

JESS BROWN-FULLER

→ For Federal Conference Committee

Dear friend, I am standing to represent members on the Federal Conference committee, because I believe the two conferences we hold annually are the most important touch points in our calendar and I want Conference to continue to go from strength to strength and offer something for all members.

I have always enjoyed Party Conference, both before and after being elected as a Member of Parliament. It's always felt like home for me and I want every member to experience the same feeling.

My experience before politics as the Chair of a month-long festival has given me a strong foundation in structured events planning, which could be utilised on Conference Committee. I have also sat as a trustee on multiple boards.

The conference agenda should reflect the wide ranging areas that our members are passionate about, with adequate time to debate the most popular topics.

Conference is the one moment in the year where the media spotlight is exclusively on our party and I want the Conference agenda to reflect the quality and substance that we have in party policy.

I want every party member to have the opportunity to experience Conference, and accessibility and funds should not be a barrier to taking part.

The decisions we make at Conference and the policy we introduce is what I have the pleasure of championing in Parliament and on the media as the MP for Chichester.

I want every member to have the opportunity to shape that policy, so it best represents our values. I'm particularly keen to support those who are joining us at Conference for the first time, so they can see how they can make a difference.

I hope you will consider trusting me with your first preference in the Federal Conference Committee vote. I hope to get stuck in soon!
