

Vote Lucas NORTH for FCC

I'm not going to promise things I know I won't be able to deliver.

I've been on FCC for the last two years, as the Young Liberals representative to the committee. In that time, I've chaired debates, I've raised questions about accessibility, and I've tried to make sure that Conference is the best it can be.

But I've also had a reality check. I joined the committee hoping to make Conference fully hybrid - for a variety of factors, that hasn't happened and isn't viable in the immediate future. I joined the committee hoping to slash ticket and Party Body exhibitor costs - but that would make Conference financially unviable.

So, I'll stick to promising what I can actually do. I will always be a voice for the membership of this party, and push for motions from members to be selected for debate. I'll push for further hybridisation *wherever we can*, and will always look for ways to improve the Conference experience for in person and online attendees. And I will continue to prioritise the accessibility of Conference for all members, as the space where we can come together and shape the voice of the Party.

I've been the Young Liberals Events Officer for three years, planning and running our own Conferences. I've been on FCC for two years. And I have a wealth of event planning experience outside of the Party.

So I'm asking members to vote for me as an experienced voice who will work tirelessly for you - ensuring that Conference is open, fair, and inclusive to all members.

LUCAS NORTH
