

Building Britain's Global Voice

1 Defending Democracy

We must stand proudly for Human Rights, Democracy, and the Rule of Law. I will ensure our party leads on Freedom and Fairness.

2 Global Climate Leadership

The Climate Crisis is urgent. Britain must be a champion of co-operation - leading in the UN, Commonwealth, and with European partners.

3 Fair Trade & Development

Trade must be fair and development sustainable. I'll strengthen ties with the Commonwealth and Global South to tackle inequality.

4 Peace & Security

From Gaza to Ukraine to Taiwan, peace is fragile. Lib Dems must speak credibly for international law, allies, and diplomacy.

BRITAIN MUST LEAD WITH LIBERAL INTERNATIONALISM

A STRONG LIBERAL VOICE FOR DEMOCRACY, CLIMATE ACTION, AND GLOBAL FAIRNESS

I believe Britain's role must be to stand tall as a bridge - between Europe, the Commonwealth, and the wider world. Liberal Democrats must be the party of confident, principled internationalism - Fighting for Democracy, Tackling the Climate Crisis, and Building Fairer Global Partnerships.

My worldview has been shaped by my academic background - I hold Honours and Masters degrees in International Relations; and I understand how History, Diplomacy, and Global Challenges intersect. This foundation drives my Commitment to International Co-operation and Fairness.

I have worked across the globe in business & technology, building partnerships that deliver real results. That experience has shown me both the opportunities and the challenges of globalisation and the need for Britain to lead with Principle, not retreat into isolation.

Alongside this, I have always lived a life of service: from Grassroot Community Work here in Scotland, to my time as a Royal Navy Reservist, to standing as the Liberal Democrat candidate for Dundee City East in the 2026 Holyrood Elections - I bring both a Local Voice and a Global Vision to the Federal International Relations Committee.
