

Over 20 years of professional experience in the policy arena

Alyssa Gilbert

Supporting the Liberal Democrats in the next election with clear, evidence-based policies that will deliver for people and planet.

Who I am:

- **Director of Innovation** Grantham Institute – Climate and environment, Imperial College, previously Director of Policy.
- **Co-Director of Imperial College's new School of Sustainability**
- Twelve years of **environmental consultancy**.
- Worked at the **Greater London Authority** and as an **environmental policy journalist** in Brussels.
- **Chair of Trustees** for a community farm
- Dedicated parent of four children at school and university
- Science graduate
- **Co-Chair of the UK Universities**
- **Climate Network**

“Our liberal and democratic values are under attack. Now, more than ever, we need to be clear and vocal about what Liberal Democrats stand for.”

What I bring:

- **Experience of working in the Federal Policy Committee**
- Full member 2019-22, re-elected again in late 2024.
- **Politically astute**
- Focus on developing policies that work on the doorstep for locals in 2026 and the next manifesto
- Learned how to balance technical policy with political needs
- **Deep policy and implementation expertise** on environmental, climate and nature topics with economic skills
- **Green start-up world insights** by connecting with founders, investors and mentors to build value through green entrepreneurship
- **Strong communication & engagement skills** creating policy that connects to the issues people care about the most, and holds weight under scrutiny and attack.
- **Professional experience** in the public and private sector bringing a range of perspectives
- **Committed and hard-working** having served on committees for a research council, private trade body and local community

Vote Alyssa Gilbert for the Federal Policy Committee

Over 20 years of professional experience in the policy arena

Alyssa Gilbert

Supporting the Liberal Democrats in the next election with clear, evidence-based policies that will deliver for people and planet.

I am proud to be nominated by the Borough of Brent party, representing the needs of a Labour-facing urban centre on the FPC.

With my extensive environmental, policy and professional background, I am best able to support the party in a policy-related role and would love the opportunity to support the party in such a role over the coming three years bringing my time and skills to developing excellent, stand-out policies, with cut-through with the public.

Although policy and innovation are my greatest strengths, I understand the importance of having people on the ground actively campaigning and, importantly listening to all of the people in our communities. If elected, I will step up my on-the-ground activities too, to ensure that I am bringing these perspectives to my work.

I stood for local council in 2018, 2022 and am planning to do so again in 2026 and am approved as a PPC.

“Liberal Democrats have a long and proud tradition of green values. I will bring my deep and long-standing expertise to bear on environmental issues set in the context of wider social and economic priorities.”
