“

I’m delighted to back Zoe for Federal Policy Committee. She combines intellectual rigour, scientific expertise, and principled liberal values with the courage to speak up. Zoe has shown real leadership—championing fairness, equality, and free speech—while working constructively with others to deliver evidence-based policy that addresses root causes of inequalities.

Rigour - Professionalism - Commitment

I will:

- **Champion diversity of thought** – making sure a wide range of perspectives and expertise inform our work, so policies are robust, future-proof, and resonate beyond our own, internal circles.
- **Ground decisions in evidence** – applying rigorous, scientific and critical analysis to thoroughly investigate issues and test our policy ideas properly to ensure they stand up to real-world challenges.
- **Stay connected to the grassroots** – listening to campaigners and members who know what matters on the doorstep and acting on their feedback.
- **Communicate with impact** – using my campaigning skills to help create policy with clear, bold messages that voters trust, the media notices, and our MPs can champion.
- **Shape winning policies** – crafting ideas that not only tackle inequality and help communities thrive but also speak to the changing times and help us win elections.
