

Let's work together to grow our party!

VICTORIA COLLINS MP

#1 CHOICE TO BE OUR NEXT VICE PRESIDENT

The experience needed to be our new Vice President

From working with the **Lib Dems for Race Equality** and as patron to the **Chinese, East & South East Asian Lib Dems** campaigning against hate crimes, to supporting diverse communities. From running an award-winning business and campaigning to **get women into tech**, to working at the European Parliament. Victoria has the experience and network to succeed as Vice President.

An experienced voice in Parliament and the national media

A grassroots campaigner with national influence

Victoria grew up in the North East and lived in Europe, where she started with the Lib Dems. From organiser to **standing for local council**, from exec member to being elected as an MP and nominated as a national spokesperson - Victoria brings together the **grassroots experience and national influence** to drive real change across the country.

Leading campaigns at all levels

A plan to grow our party and improve diversity

Victoria has a **proven track record** organising and leading in the party to get things done. Working with current organisations, local groups and leadership, she has a plan to drive inclusive engagement at all levels.

Award-winning work in diversity

“ My mum came to this country from Malaysia over 50 years ago and has never stopped inspiring me.

I hope we can inspire more women into leadership positions, which is why I've signed the VP pledge for Lib Dem Women.

Overall, we must improve engagement if we're going to improve diversity. ”

Dear friend,

As the first Lib Dem MP of East and South East Asian heritage, I'm standing as Vice President to grow our party and stand up to populism.

That means improving **inclusive representation at all levels** of the party.

My plan is to:

- Work with the **grassroots** campaigners on diversity to secure resources and recognition
- Bring together **organisations** across the party to unlock diversity from a **wide range of backgrounds**
- Improve engagement by securing the **resources and practical support** for local parties and councils.
